DATE- 5th MARCH 2026

TIME- 9:00AM - 4:00PM

VENUE- Seminar Hall ,4th Floor, 'B'

Block, College of Dental Sciences,

Davangere

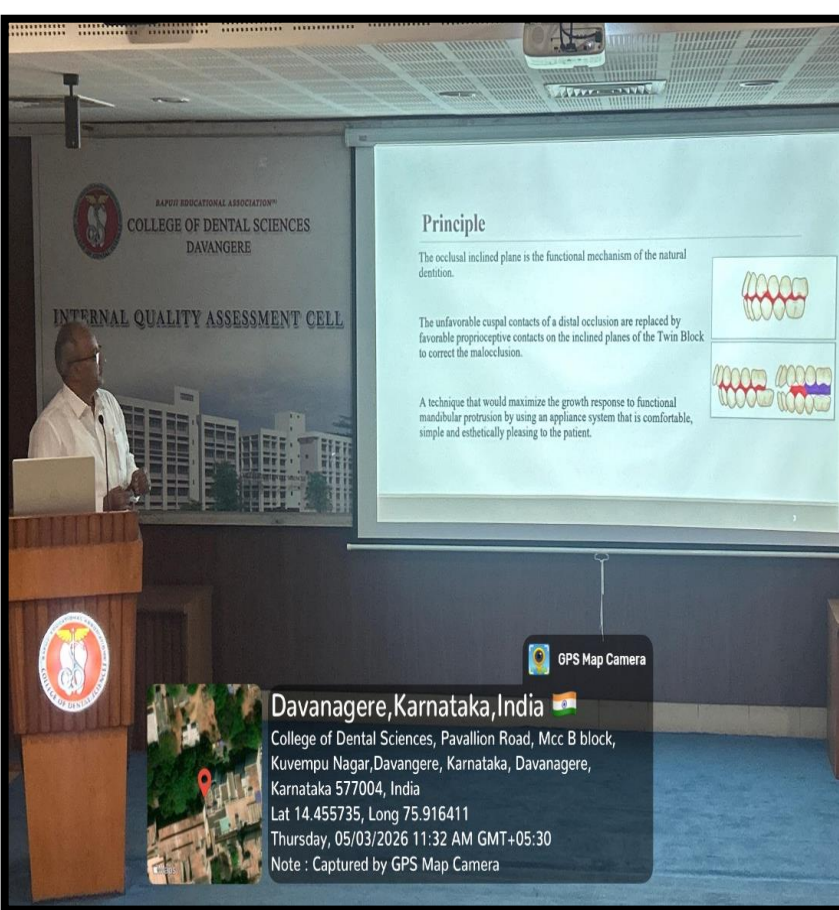

A hands-on workshop on twin block appliance was conducted by the Department of Pediatric and Preventive Dentistry in collaboration with Department of Orthodontics and Dentofacial Orthopaedics

The program aimed to enhance the knowledge and clinical skills of postgraduate students in the management of developing malocclusions using twin block appliance

The program successfully provided both theoretical knowledge and practical exposure, thereby strengthening the clinical competence of participants in the use of Twin Block appliances for the management of growing patients.
