IMPLANT MODULE 2

Venue: Seminar hall Implantology Department Date: 15,16 & 17 of July 2026

The first day was conducted by **Dr. Mihir R. Kulkarni**, who focused on the principles of **flap design in implant surgery**. The session covered various **incision designs, flap elevation techniques, blood supply to the flap, flap reflection, and soft tissue handling**, emphasizing the importance of preserving vascularity and ensuring tension-free wound closure for successful healing.

The second day was also conducted by **Dr. Mihir R. Kulkarni** and focused on regenerative procedures and advanced implant surgery.
