Date: 02/05/2016

## POLICY DOCUMENT:

### Beyond the Campus Environment Promotional Activities

College of dental sciences adheres strictly to the concept of environmental protection and routinely plans on- and off-campus events that highlight our college's responsibility to the environmental sustainability. Our college actively participate in planning environmental awareness-raising and conservation efforts off campus.

The following are the main elements of the institution's policy for environmental promotion outside of campus.

- Promote environmental problems among stakeholders to stop resource abuse and pollution.
- Engage faculty and staff in projects that support forest conservation, restoration, and protection.
- With the cooperation of sector specialists, organise workshops on environmental conservation strategies, particularly for wetland resources.
- Hold protests, flash mobs, and cleanup drives in the Davangere Corporation area.
- Encourage and coordinate drives to plant trees near the university and at the homes of students.
- Put up signboards and informational boards to inform people about the importance of preserving forest.
- To raise public knowledge of environmental conservation, organise road shows and cultural events that invite participation from the public.
- Work together with regional, national, and social service organisations.
- All the above promotional activities are under ambitious responsibility of IQAC, the Director & Maintenance department(who calculates energy usage & energy saved) so far, but very soon it will be under "Green Audit committee " which includes internal members and 2 external members.
